Whooops.

Assemblyman Lloyd Levine's own survey shows that 7 out of 10 people **OPPOSE his proposed law to force pet sterilization.**

Perhaps that's because Californians know AB 1634 will create a convoluted maze of government red tape, hefty fees and punitive fines that will make both taxpayers and blameless animals pay dearly.

Or maybe it's because AB 1634 will take scarce funds from caring for lost, abandoned and injured animals to finance an overreaching bureaucracy that will be expensive to administer, impossible to enforce, and is guaranteed to fail.

Or it could simply be that 70% of Californians agree with veterinarians, law enforcement, the disabled, editorial boards, small business owners, and pet lovers across the state who oppose Levine's mandatory spay/neuter measure as irresponsible and publicity-driven.

Dedicated to the rights of pets and their owners.

Opposed to AB 1634.
